

REFLECTIVE ADDRESS SIGNS

Properly displayed house numbers allow emergency personnel to **RESPOND MORE QUICKLY** to an emergency!

Grand Haven Township Fire/Rescue and Robinson Township Fire Department

is encouraging all residents to properly display their address.

To assist the residents, the township has begun processing orders for **HIGHLY REFLECTIVE GREEN** address signs that can be displayed near the street. The signs may be displayed on a pre-existing mail box or on a post near the end of your driveway, visible from the street. If your mailbox does not sit on the same property as your house (i.e. across the street) or is clustered together with several other mailboxes, it is suggested that your new sign be installed on a post near the end of your driveway, visible from the street.

In an emergency...if we can't find you...WE CAN'T HELP YOU!!!

- ** Endorsed by Muskegon, Oceana and Ottawa County Emergency Services, 911 director and the Ottawa County Fire Chiefs Assoc.
- ** Especially effective at night
- **Numbers on both sides (white over green)
- **Rust and weather proof heavy gauge aluminum
